GOVERNMENT OF INDIA
MINISTRY OF NEW AND RENEWABLE ENERGY

Message

The Government of India is committed to promote ecologically sustainable growth while addressing India's energy security challenge. With this objective in view, the Government has been stressing the promotion of renewable energy, with particular focus on solar energy since India has a huge untapped solar potential.

The Solar Report prepared by LSI Financial Services Pvt. Ltd. is surely a timely efforts towards this objective of the Government so as to meet the enhanced energy requirement of the country by supplementing the conventional sources of energy. The Report will definitely help the entrepreneurs in the solar sector.

I wish LSI Financial Services Pvt. Ltd. all success in their efforts in promoting the solar power sector in the country.

(Tarun Kapoor)
